

C

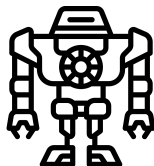

+

## VERTICAL STACK

Lay boards in a row.  
You may use a move to  
go up or down a board  
in the same position.

---

C

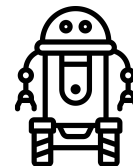

+

## SIMD

The same instruction  
is given to all robots.

---

C

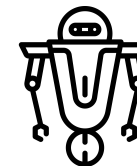

+

## MAYBE(SIMD)

The same instruction may  
be given to all robots.

---

C

+

## SILVER SURFER

The silver robot  
must touch another  
robot that moved.

---

C

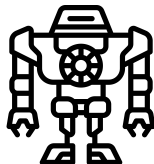

+

## 180

Rotate all boards  
180 degrees.

---

C

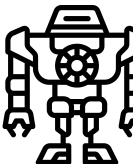

+

## HOLES

Mark a hole on each  
board. Robots may  
not pass over holes.

---

C

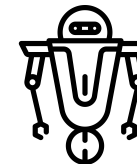

+

## TELEPORT

A robot may teleport be-  
tween any two locations of  
the same color as a move.

---

C

+

## NINJAS

You may use a move  
to pass through a wall.
